PROFESSIONAL EXPERIENCE

Data Engineer / MLOps (Work-study) — Société Générale Assurances

09/2023 – Present

La Défense, France

- Designed an **automated SAS-to-Python migration system** powered by **GitHub Copilot**, leveraging **prompt engineering**, reusable **Skills** (specialized agent capabilities) and persistent context (`copilot-instructions.md`), validated by a 2-tier test suite
– *Python · Polars · DuckDB · GitHub Copilot · Prompt Engineering · AWS S3*
- Data analysis on recognition errors of the **Zaion Callbot** based on **1 year of operational data** to evaluate **system effectiveness** and identify the main causes of errors, leading to **3 improvement recommendations**
– *Python · Pandas · NumPy · Matplotlib · Seaborn · Plotly · Jupyter Notebook · Conda*
- Development and deployment of **3 VS-Code extensions** to simplify the use of internal tools on the **Data platform** and improve workflow efficiency for **30+ users (Data Scientists & Data Analysts)**
– *TypeScript · Python · JSON · Bash · Linux · Git · VS-Code*
- Design and deployment of a **Zaion Callbot monitoring dashboard** to track **10+ operational KPIs** and analyze system performance for internal teams
– *Apache Superset · PostgreSQL*
- Design and automation of a **data migration pipeline** enabling the transfer of **500+ GB of SAS datasets to AWS S3**, in order to improve **scalability, access, and data processing** for Data teams
– *Python · AWS S3 · fsspec · smbfs · Linux · Bash*
- Maintenance and update of **35+ internal extensions** as well as **code-server versions** to ensure the **stability and compatibility of the development environment** used by **40+ users** in Data teams
– *Linux · Bash · VS Code · code-server · Git*

IT PROJECTS

- Phishing Email Detection System** | *Python, Machine Learning, NLP* **2026**
Phishing email classifier trained on **76 677 emails** (5 real-world datasets) via full NLP pipeline : TF-IDF, URL extraction, LightGBM + Naive Bayes + LSTM ensemble
- Logistics Center Placement** | *Python, Julia, CPLEX, Optimization* **2025**
Combinatorial optimization project for logistics center placement using MILP models solved with CPLEX and heuristics
- Reaction System** | *Haskell* **2024**
Representation of reaction systems and processes using functional programming
- Traveling Salesman Problem** | *C, Reinforcement Learning* **2023**
Implementation of the ant colony optimization algorithm
- Research Publication** | *Mathematical Algorithms* — Impulse noise filtering method in video images *Informatics and Mathematical Methods in Simulation*, Vol. 11 (2021), No. 4 **2021**
- Anomaly Detection** Methods for partial data labeling | *Python, Machine Learning* **2021**

EDUCATION

Sup Galilée Engineering School — Engineering Degree in Computer Science

2023 – 2026

Courses : Cloud Computing, Data Mining and Programming for AI, Databases (MySQL) and NoSQL, Docker, Probability and Statistics, Linear and Combinatorial Optimization, Parallel and Distributed Algorithms, Graph Algorithms, and others

Sorbonne Paris Nord University — Preparatory Class for Sup Galilée

2021 – 2023

Courses : Algebra, Analysis, Topology and Differential Calculus, Scientific Computing, Algorithms, UNIX Systems

CERTIFICATIONS & SKILLS

- Core Technical Skills :** Python, SQL, Linux, Bash, Git, REST APIs, JSON, PostgreSQL, MySQL, Docker, AWS S3, Jupyter, Anaconda, Wireshark, Jira
- Data & Automation :** Pandas, NumPy, Polars, DuckDB, Apache Spark, Scikit-Learn, TensorFlow, LightGBM, XGBoost, Matplotlib, Seaborn, Plotly
- Trading & Support Knowledge :** MT4/MT5, financial markets, Forex, order types, market sessions, execution concepts, risk management, troubleshooting, production support, log analysis, incident investigation, technical documentation
- Udemy :** *Python for Data Science and Machine Learning Bootcamp* — Jose Portilla / Pierian Training

AWARDS & PARTICIPATIONS

- Georges Besse Foundation Laureate**
- Eco – Techno Ukraine ISEF** — 1st place in Computer Science & **Collective Intelligence Internet Service** — 1st place in Ukraine

LANGUAGES & INTERESTS

English : Fluent **French :** Fluent **Ukrainian :** Native **Russian :** Bilingual
